- 1) Visit Zorbits and Raz Kids at least 2X this week
- 2) Complete the activities below and you can hand it in on Friday since Wednesday is Hallowe'en night!

Halloween Homonyms!

Complete the spooktacular poem below by filling in the blanks with the correct homonyms. Use the word box to help you. Words may be used more than once.

to, too, two, there, their they're, no, know, weather, where, wear, here, hear

I'm trying _____ decide just what _____ on Halloween night.
I want it _____ be special and give everyone one a fright! I asked my
mom _____ we could look.

She said we should go _____ the store.

Mom says _____ all pretty scary, but I'm worried they might be a
bore.

My friends have all got _____ costumes.

_____ parents picked them out.

When I _____ them talking about them, it makes me want to shout.

I _____ are still a few days before Halloween is
_____.

I do have _____ great ideas.

Both would cause fright and fear.

One is neon and would be fine in _____ that is cold or warm.

The other might be a little _____ long for walking in puddles from a
storm.

I think I'll go with choice number one it's scary and _____ one else's glows at
night.

So now that I _____ which costume I'll use.

I'm ready _____ give everyone a fright!

Monstrous Math!

57 scary monsters.

26 silly monsters.

Mrs. B **estimates** that sum of scary monsters and silly monsters is 60. Is her estimate on track? Justify your thinking.  **Think** (turn each number into a friendly number and then add). Make sure to show the reader all of your steps in a clear and visible manner.
